

AMENDMENTS TO THE CLAIMS:

Page 10, lines 1-2, before claim 1, replace the heading with the following heading:

WHAT IS CLAIMED IS: Patent Requirements for the model of utility
of the Anti-Damage Contact Lens Case

The following listing of claims will replace all prior versions, and listings, of claims in the application:

1-4. (Canceled)

5. (New) An anti-damage contact lens case comprising:

a base; and

two independent containers connected on the base, each container including:

an outer wall of a first height,

an inner wall of a second height greater than the first height and having at least one opening therein, said inner wall defining an enclosed chamber for holding a contact lens therein, and

an enclosed space between said inner wall and said outer wall which is fluidly connected with said enclosed chamber by said at least one opening.

6. (New) An anti-damage contact lens according to claim 5, wherein said outer wall and said inner wall each have an annular configuration.

7. (New) An anti-damage contact lens according to claim 6, wherein said enclosed space is an annular space.

8. (New) An anti-damage contact lens according to claim 6, wherein said at least one opening includes at least one slot in said inner wall which fluidly connects said enclosed chamber with said enclosed space.

9. (New) An anti-damage contact lens according to claim 5, further comprising two lids for engaging with said outer wall to close said two containers.

10. (New) An anti-damage contact lens according to claim 9, wherein each said outer wall includes screw threads on an outer surface thereof for threaded engagement by a respective said lid.
